

TREASURY DEPARTMENT, }  
Document No. 74.  
Marine-Hospital Service. }

TREASURY DEPARTMENT,  
OFFICE SUPERVISING SURGEON-GENERAL,  
UNITED STATES MARINE-HOSPITAL SERVICE,  
*Washington, December 7, 1880.*

The "Bulletins of the Public Health," published in accordance with the National Quarantine Act of April 29, 1878, were issued from this office weekly, from July 13, 1878, to May 24, 1879, inclusive, compiled from the reports received during the periods in which the recent epidemics of the plague in Russia and yellow-fever in the United States prevailed, the latter by far the most disastrous epidemic of yellow-fever that has yet visited America. These reports were originally published on separate sheets by the papyrographic process, which was ill adapted for permanent record; and it was impracticable that any considerable number could be furnished to those desiring them. In order, therefore, that there may be on file in each marine hospital the complete series in a permanent form, it has been decided, with the approval of the Secretary of the Treasury, to republish the "Bulletins" in a shape better adapted for preservation.

JOHN B. HAMILTON,  
*Supervising Surgeon-General, M.-H. S.*
